Introduction

APK is a leading property and construction services business operating across the North West but with a primary focus on Cumbria.

Capabilities

APK is committed to helping deliver and drive forward regeneration and development projects throughout Cumbria. Solely, and through our JV with The Hamilton Portfolio we have an impressive record of development projects covering a diverse range of business which includes Mixed Use, Retail, Commercial, Industrial and Logistics, Leisure and Residential.

APK Construction Services UK is currently active across Cumbria on a number of both our own and third party projects. The business covers build and civil engineering, across the Residential, Industrial, Commercial, Retail and Leisure sectors undertaking works from £50,000 to £10,000,000. We employ a number of our own highly skilled workforce and have a strong chain of locally sourced sub-contractors to assist in delivering our projects where required. We deliver all projects to the highest standards of quality with exceptional collaboration skills we deliver the right results ensuring best value for our customers.

Developing strong local links teamed with knowledge of the market we aim to increase and diversify our portfolio to lead where others follow.
