Introduction

BMCL is a niche and boutique Cumbrian SME aiming at providing support services to large, complex, contract driven and highly regulated organisations. The success of our business operating model oscillates around Collaboration, Honesty, Trust, Integrity and Respect. We pride ourselves in our commitment to deliver assignments to clients' quality standard, time and cost.

Our main expertise remains our capability to support project management mainly in the delivery of large scale infrastructural and decommissioning projects in both the nuclear and aviation sectors. Experience includes exerting financial and project controls over the defueling and decommissioning of a nuclear site in the South West of Scotland and decommissioning of a nuclear site in Cumbria using Earned Value Management (EVM) reporting process.

Services

- Our business focus remains primarily on the provision of finance, commercial and project controls services. It could take the form of either a stand-alone service or a service provided within a fully embedded collaborative team. Services includes the following:-

Project Controls

- Cost Management & Forecasting
- Project Planning & Control (Life Time Plan Build)
- Estimating- Detailed/Parametric/Volumetric
- Project Risk Management
- Earned Value Management (EVM)
- Project Reviews
- Project Quality Audit- Scope, Estimate, Schedule & Risk
- Business Case
- Benchmarking
- Project Cost Reviews
- Project Recovery & Turnaround

Commercial Management

- Tender Evaluation
- Sub-contractor Cost Review
- Review of Early Warnings & Compensation Events
- Review of Disputed Claims

Financial Controls

- Interim Finance
- Cash Flow Forecasting
- Financial Planning
- Business Planning
- Project Profitability Review
- Review of financial processes including documentation
- Balance Sheet, Stock, AP & AR Review
- Financial Re-structuring

We're here looking for:

To partner collaboratively with you in view to helping you delivering cost effective solutions to your clients. Pradeep, a Chartered Management Accountant and holds an MBA from Cranfield, has spent most of his career in the Aviation and Nuclear sectors working on delivery of challenging Tier 1 projects and transformation programmes.
