## Introduction

Bilfinger UK delivers a comprehensive range of process control technologies and services. We provide fully integrated solutions from a single source, reducing overall risk and achieving value. Our scalable and flexible approach maintains a high level of quality whether you require an individual service or a combined solution. We are the largest independent control systems integrator and solutions provider in the UK, delivering our services to a diverse range of demanding industries worldwide.

## Capabilities

Bilfinger UK, formed through the merger of BIS ATG and the HG Group, has over 30 years of experience of delivering automation, systems integration and control system manufacture to customers in the UK and overseas.

We have a world class manufacturing facility which supports our UK leading DCS, MIS, PLC and SCADA capability.

We operate across a wide variety of demanding industry sectors including Nuclear, Metals, Food & Beverage, Oil & Gas, Petrochem and Pharmaceutical.

With a core workforce in excess of 400 employees and a dedicated engineering team of suitably qualified and experienced personnel with appropriate security clearance, we can mobilise the appropriate resource for any project.

Our proven track record in delivering market leading integrated solutions in the nuclear industry includes a wide range of power generation, decommissioning and defence applications. Our nuclear end users include Sellafield, AWE, British Energy, EDF Energy and UKAEA.
