Introduction

Design Code Ltd is a 3D design and digital fabrication company offering creative design solutions using the latest technology, with a focus on quality, contemporary design and customer service. We specialize in architectural models, exhibition displays and props, 3D bespoke signage and commercial interior decor. We also design and fabricate bespoke awards, commemorative plaques and corporate gifts.

Capabilities

3D Architectural Modelling

- Models for project / development promotion and public consultation
- Designing innovative model concepts using CAD plan drawings
- Highly accurate scale modelling using laser cutting and 3D printing
- Integrated LED lighting and removable build plate options
- CNC topography to give landscape context

Exhibition & Commercial Interiors

- Bespoke displays for project / product promotion
- Point of sale
- Working with client brand identity / core values
- Tailored to any budget and timeframe

Bespoke Signage & Plaques

- Indoor and outdoor 3D laser cut / CNC bespoke commercial signage
- Commemorative plaques
- Materials to tie in with brand identity: acrylic, aluminium composite, wood...
- LED backlighting

Awards & Corporate Gifts

- Bespoke event and ceremonial awards
- Innovative corporate gifts

Digital Fabrication Services

- Working with businesses providing CNC milling, laser cutting, vinyl cutting and 3D printing services.
- One-off projects welcome

If you are interested in our design and fabrication capabilities please [email us](#). We can visit you or arrange a meeting in our Design Code Studio.
