Introduction

E AND H are a leading provider of project, programme and change management solutions and support. Whatever your organisation – if you have a project management challenge our expert and experienced team of staff and associates can help, resolving problems and quickly providing that ‘clear way forward’. From IT projects to organisational change programmes – if it’s a project we know about it!

Whatever you need, from advice to resolve a particular problem, to transforming your organisation’s ability to deliver successful projects and sustainable change – we can help.

Capabilities

E AND H™ are different – our people work collaboratively and effectively with your team, delivering immediate impact and lasting improvement. Our services are always bespoke because every client is different.

The sorts of things we do include:

- Helping you define the right projects and approaches to deliver your strategy successfully
- Supporting the robust initiation of projects to lay the foundations for success
- Improving project management skills and capabilities
- Provision of interim management for critical projects and programmes
- Visual Management software tools for effective management, collaboration and control
- Services including project planning; benefits management; procurement and supplier selection; project office monitoring and controls, budget and supplier management, etc.
- Project reviews and turnaround of failing projects.

Our team are all appropriately qualified, skilled and experienced in areas ranging from project methodologies (inc. PRINCE, MSP and Agile) to HR and Organisational Development.

E AND H have an extensive public sector and not-for-profit client list and our services can be procured through a range of channels, including Procserve.

For more information and to read our case studies visit our website – www.eandhlimited.com

We're here looking for:

We are looking to assist businesses and other organisations in all sectors who need to deliver projects, programmes or change effectively, and to help them realise the benefits from their investment.
