Introduction

Lamont Pridmore is one of the leading independent chartered accountancy practices in Cumbria and Lancashire. We combine traditional values with a forward-thinking, innovative approach to the ever-changing business world. We focus on the future rather the past and strive to build successful, long-term relationships with our clients.

We always aim to add significant value to our clients' businesses, which this year was 3 times the fees we charged. This demonstrates real value for money and sets us apart from our competitors. We start where many firms finish.

Capabilities

Lamont Pridmore is a multi award-winning, family-run firm of chartered accountants, tax and business advisers with offices across Cumbria and Lancashire. We provide a range of business support services to companies, organisations and individuals throughout the North of England and Southern Scotland.

We are a Top 100 firm of chartered accountants and one of only two family firms listed. We have also been identified as one of the fastest growing practices in the UK for the past five years by leading publication Accountancy Age.

We combine traditional values with a forward-thinking, innovative approach to the ever-changing business world. For us building successful, long-term relationships with our clients is more important than a single transaction.

We are constantly looking for innovative new ways to deliver a first-class service and provide the latest training and skills to our staff.

We focus on the future rather the past. Lamont Pridmore does all things that other firms of accountants do, but it is at this point that our high levels of service really come to the fore through focusing on three main areas:

- Keeping tax liabilities to a minimum
- Helping clients to make more money
- Investing your wealth wisely

We always aim to add significant value to our clients' businesses, which this year was 3 times the fees we charged. This demonstrates real value for money and sets us apart from our competitors. We start where many firms finish.

But don't just take our word for it – our higher levels of service and expertise have been independently recognised with a string of national and regional awards.
