Introduction

Responsive Ltd are a team of professionals based at Lillyhall Cumbria carrying out non destructive testing and inspection services. Our customer base is broad and business areas ever expanding, working within marine and offshore, nuclear, engineering and new fabrication, renewables and power generation to name a few.

Capabilities

Responsive operate a full self sufficient testing facility at Lillyhall, Cumbria, UK. We have in house capability for industrial radiography with a functional 8 meter x 5 meter radiation compound for fast, efficient and cost effective x and gamma radiography.

Responsive employ SQEP technicians including PCN level 2 and 3 in MT, PT, UT, RT, PA. In addition we also employ CSWIP 3.1 and 3.2 welding inspectors and ICORR level 2 painting inspectors.

Services

At Responsive Ltd our services include:

- Magnetic Particle Testing (MT)
- Dye Penetrant Testing (PT)
- Ultrasonic Testing (UT)
- X & Gamma Radiography Testing (RT)
- Phased Array (PA)
- Positive Material Identification (PMI)
- Ferroxyd, Passivity Testing
- Hardness Testing

In addition many more which can be found on our "[services](#)" section within our web page.

Our company has built its reputation for providing excellent Non-Destructive Testing and inspections with all our customers.

We pride ourselves on the high level integrity of our service we offer to our customers.

We always strive to deliver the exacting requirements of the customer progress and grow our company expanding our team's current skills and experience.

If you have any questions regarding NDT or inspections, please do not hesitate get in touch with our team today and we will be more than happy to help you.

We're here looking for:

Opportunities for collaborative working between Responsive and Engineering related companies. Responsive have the capability to offer full inspection resource with years of Sellafield know how. We can help tier 2,3,4 + in the supply chain by ensuring your compliance with SL engineering standards.
