STFC funds/ supports international science facilities on behalf of the UK

Contract opportunities at these facilities for suppliers also exist in a wide range of sectors across all technology levels; from civil engineering through to precision mechanical engineered parts.

They provide free assistance to help UK industry and companies to win contracts to supply goods and services.

They provide:

- Advanced notice of upcoming tenders from CERN, European Southern Observatory (ESO), European Synchrotron Radiation Facility (ESRF) and, Institut Laue-Langevin (ILL), European Spallation Source (ESS) and the Facility of Antiproton and Ion Research (FAIR)
- Support and advice on the tenders processes for our international facilities
- Targeted events to link you with facility procurement specialists

Through their Tender Opportunities Service they provide free assistance to UK companies working in a diverse range of sectors.

From office supplies to instrumentation they help businesses to access contracts from the large international science facilities that they fund on behalf of the UK.

Link to <http://www.stfc.ac.uk/files/opportunities-to-tender/> for a free leaflet

The service and the tender opportunities are available by registering on a database at www.stfc.ac.uk/tenderopportunities
